CIA CONFERENCE

CIACON 2026

ESTABLISHED 2018

Building India's Cybersecurity Community

ABOUT

About CIACON

CIA Conference (CIACON) — formerly the National Cyber Security Conference 2018 — is one of India's most prestigious cybersecurity conference series, organised by InterSquad Cyber Intelligence Pvt. Ltd.

The name draws from the **CI Triad — Confidentiality, Integrity, Availability** — the foundational pillars of information security.

Today, CIACON is India's premier hacker conference — a space where **real talk happens**. No sales. No vendor pitches. Just defence. Built by those who do the work — for those who do the work.

2018

Founded at Manav Rachna, Faridabad. 500+ inaugural delegates. The beginning.

2020

First India conference with US Homeland Security speakers. Asia's first 3D CTF platform.

2026

Season 3. New Delhi. Theme: AI vs AI. The battlefield has changed.

CIACON 2026

THE CIACON DIFFERENCE

Why Attend CIACON

The only Indian cybersecurity conference built entirely by practitioners, for practitioners.

01

Real-World Defence

Every session comes from real incidents, real breaches, real investigations. No theoretical slides.

02

Global Expertise

Speakers from US Homeland Security, SentinelOne, CrowdStrike, Google, Microsoft, and Meta.

03

Hands-On Hacking

Interactive hacking villages, hardware labs, CTF competitions. Learn by breaking, not just listening.

04

Practitioner Network

300+ security professionals — CISOs, red teamers, researchers, students. Your tribe is here.

05

Expert Training

Multi-day intensive workshops from world-class trainers across all skill levels.

06

Career Growth

Direct access to hiring managers and top security organisations actively recruiting.

07

Innovation

Startup showcase, product demos, and the latest tools shaping digital defence.

08

Policy & Governance

Engage with government officials and policymakers driving India's cyber strategy.

"If the Threats are Real, the Conversations should be too."

CIA CONFERENCE

CIACON 2026

HALL OF FAME

Past Speakers

Heath Adams

Founder & CEO, TCM Security

Georgia Weidman

Founder & CTO, Bulb Security / Shevirah

Amy Storer

Intelligence Analyst, US Homeland Security

Dr. Gulshan Rai

Natl. Cyber Security Coordinator, Govt. of India (Retd.)

Ted Harrington

Executive Partner, Independent Security Evaluators

Rakshit Tandon

Cyber Security Evangelist

CIA CONFERENCE

CIACON 2026

TRACKS

Conference Tracks

Offensive Security
Penetration testing, red teaming, exploit development, adversary simulation.

Threat Intelligence
Threat hunting, attribution, dark web monitoring, APT analysis.

Cloud Security
Container, serverless, CSPM, multi-cloud defence strategies.

I & ML Security
Adversarial ML, LLM security, deepfakes, AI-powered SOC.

Hardware & IoT
Firmware, RF hacking, embedded systems, wireless protocols.

Digital Forensics & IR
Incident response, memory forensics, malware analysis, ransomware.

Application Security
Web, mobile, API security, DevSecOps, supply chain.

ICS / OT Security
Industrial control systems, SCD- critical infrastructure.

TECHNICAL DEPTH

Eight Specialised Conference Tracks

CIA CONFERENCE

INTERACTIVE

Hands-On Experiences

CIACON goes beyond talks. Interactive villages, labs, and competitions designed for practitioners who learn by doing.

Hardware Hacking Village

Circuit boards, RF devices, Flipper Zero, oscilloscopes. Instructor: Rahul Thareja. Wi-Fi / BLE / Sub-GHz RF.

CTF Competitions

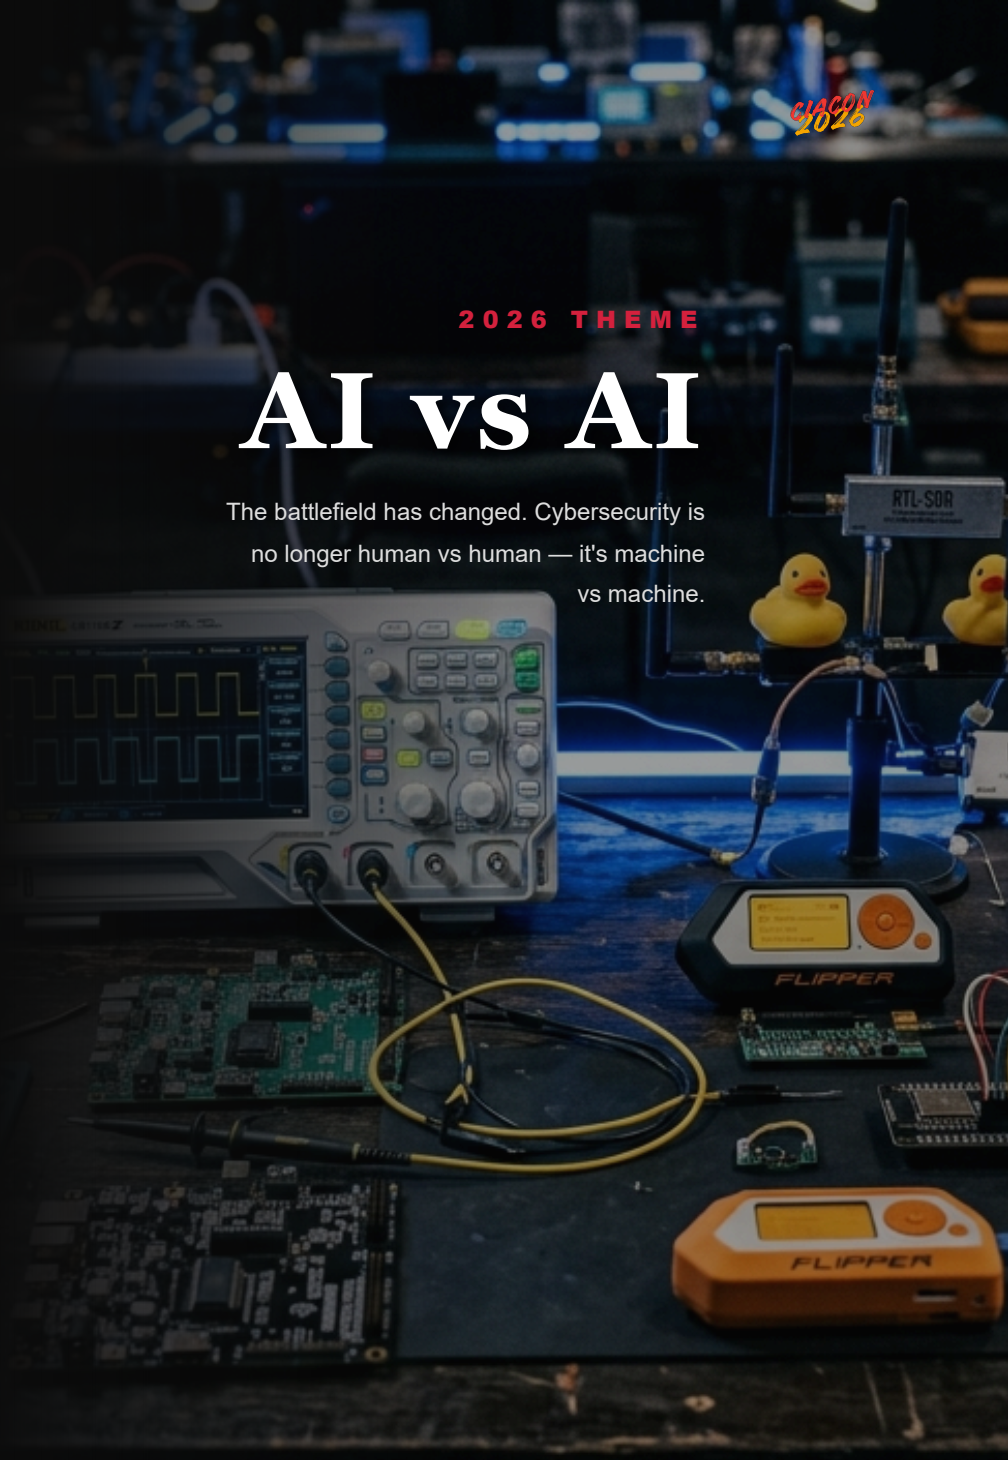

Asia's first Unity 3D-based Capture The Flag. Real-time team challenges, live scoreboard, and real prizes.

Expert Workshops

Multi-day intensive training from world-class trainers. Offensive security, cloud, malware analysis.

Live Demonstrations

Lock picking, social engineering, physical security. Experts break into systems live on stage.

2026 THEME

AI vs AI

The battlefield has changed. Cybersecurity is no longer human vs human — it's machine vs machine.

MAIN STAGE

Keynote Sessions

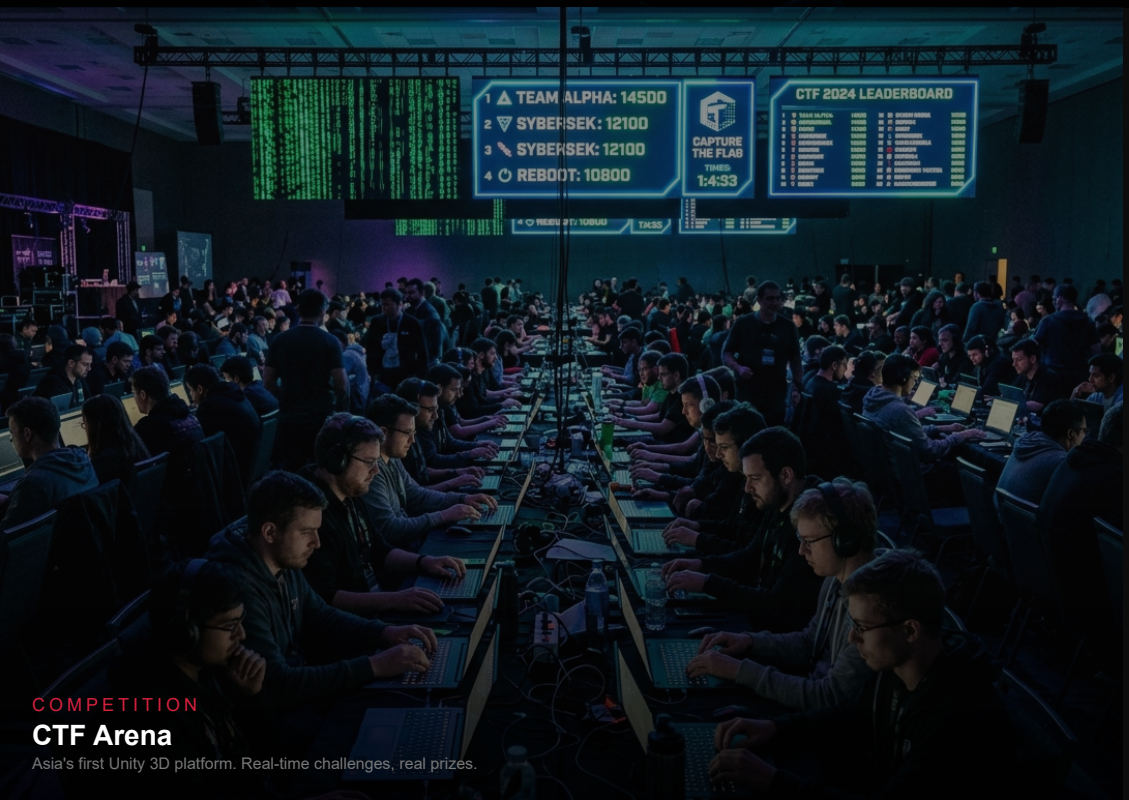

High-impact presentations from global security leaders.

COMMUNITY

Professional Networking

300+ professionals. Structured sessions and hallway conversations.

COMPETITION

CTF Arena

Asia's first Unity 3D platform. Real-time challenges, real prizes.

EXPERIENCE

The CIACON Experience

Keynotes. Fireside chats. Panel discussions. Hacking villages. CTF competitions. Awards. Networking. Two days of immersive cybersecurity.

CIA CONFERENCE

CIACON 2026

AUDIENCE

Who Should Attend

CISOs & Security Leaders
Senior executives driving security strategy and policy.

Penetration Testers & Red Teamers
Offensive security professionals seeking real-world techniques.

Security Researchers
Academics and independents sharing original research.

Government & Defence
Policymakers and law enforcement officials.

Students & Young Professionals
Next-gen defenders. Volunteers welcome.

Developers & Engineers
DevSecOps, cloud, and product security practitioners.
